Software Engineer

Toronto, ON M2H 3A9

647-703-5597 nobutako.info@gmail.com

Software development | Problem-Solver | Self-Driven | Team player | Scrum/Agile development

QUALIFICATION SUMMARY

As a Software Engineer, I am passionate about creating exceptional user experiences that make a difference in people's lives. With strong skills in JavaScript, React, Node.js, Java, and SQL I thrive on collaborating with cross-functional teams to deliver products that exceed client expectations. I am committed to continuous learning and staying up-to-date with emerging technologies to contribute to the success of the team and the projects. Besides work experience in IT, I have years of experience in working individually/in a team in retail/food industries.

- | | | |
|---------------|-----------------|-------------------------------|
| ✓ HTML5 | ✓ CSS (SASS) | ✓ JavaScript (React, Angular) |
| ✓ Java/JavaFx | ✓ Node.js | ✓ RESTful API |
| ✓ SQL | ✓ Accessibility | ✓ Docker |

RELEVANT PROFESSIONAL EXPERIENCE

Associate Software Engineer

Deloitte

May 2022-April 2023

Toronto, ON

Driven and proactive Associate Software Engineer at Deloitte with a passion for personal and professional growth.

Leveraged opportunities to contribute to events, RFPs, workshops, and skills development, while successfully collaborating with cross-functional teams to drive project success.

- Collaborated with cross-functional teams including back-end engineers, QA teams, and client dev teams to code and ensure project success.
- Participated in code reviews/pair programming to ensure code quality meets standards, best practices and the client's needs adhering to the project schedule.
- Utilized Next.js to optimize website images and improve overall website performance and accessibility.
- Managed project tickets, provided programming support, and incorporated feedback from the QA team and the client's dev team.
- Proactively sought opportunities to contribute to the company through event organization, RFP contributions, and client workshop volunteering
- Proactively sought out opportunities to enhance technical skills and industry knowledge, including earning an AWS certificate and participating in front-end/back-end engineering guilds.
- Played a key role in creating a centralized depository of the past projects to enhance RFP processes and knowledge share.
